

Does your partner...

take your paycheck or restrict access to your money?

blackmail you with the threat of sharing personal information?

undermine your parenting or say they will take away your children?

pressure you to have sex, do drugs or engage in illegal activity?

blame you for problems in your relationship or tell you your friends or family are trying to ruin it?

destroy property to intimidate you?

control you?

stalk or relentlessly harass you?

intimidate you with a gun?

threaten to kill you?

Jeanne Geiger CRISIS CENTER

During this time, we are offering virtual support to survivors of domestic violence, including advocacy, counseling, legal assistance and support groups.

While social distancing is important during this pandemic, we know this is an especially difficult time for those experiencing domestic violence.
